

SOLAR AND WIND-POWERED PUMP GRANT EFFICIENCY PROGRAMS

Solar and wind-powered pumps are a great option for remote areas. Grants are for the installation and costs of a solar or wind-powered water pump system. The grant covers 50% of costs up to \$500. Payments are subject to proof of sale and installation from a Saskatchewan supplier.

HOW TO APPLY

The solar and wind-powered pump grant is open to all Saskatchewan businesses. To meet this, you must buy a pump system from a Saskatchewan-based supplier.

After installing the pumping system, fill out the application form and send it in, along with your invoice and proof of purchase.

If you're unsure if your project meets requirements, please contact us to confirm.

CONTACT US

If you wish to speak with someone about the program, please call **1-888-757-6937** and ask to speak to the Business Manager in your area of the province.

Applications can be sent to:

Weyburn, Customer Relations
1665 Ebel Rd
Weyburn, SK
S4H1V3
