

ONLINE ENERGY ASSESSMENT

FOR SMALL AND MEDIUM BUSINESS

YOU'VE GOT THE POWER TO SAVE

Energy costs affect your bottom line. Learn more about where your money is going by taking our free Online Energy Assessment. It looks at your business' lighting, heating, insulation, appliances, refrigeration, HVAC system and more and provides you with a breakdown of your usage and ways to save.

Eligibility

- Saskatchewan businesses
- Average yearly power bill of \$45,000 or less

What You Will Receive

- An estimated breakdown of your power and natural gas usage. Find out where your money is going.
- Recommendations on how to save on your power and natural gas bills.
- A report that provides information on both electricity and natural gas usage in order to give you the full picture when it comes to energy efficiency. It provides general usage information and ways to save on your utility bills.

How To Take Part

1. Visit saskpower.com/businessaudit
2. Provide basic information about your business and the tool will instantly calculate your basic consumption and make energy and power-saving recommendations.

Learn more at saskpower.com/businessaudit or email DSMCommercialPrograms@saskpower.com

Benefits

- You could save money on your power bills annually
- Learn about where your money is going when it comes to your power and natural gas consumption

This assessment provides information and recommendations on both electricity and natural gas usage in order to give you the full picture when it comes to energy efficiency. It provides general usage information and ways to save on your utility bills. This is not a representation of exact savings you could see on your utility bills
